### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/5/06 has been entered.
2. Claim 48 has been canceled. Claims 1-47 and 49-62 are pending in the application. Claims 10-20 have been withdrawn from consideration.
3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 41, 43-46, 56, and 58-62 rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. An opaque coating comprising (i) a monomeric polybase and a monomeric polyacid, (ii) a polymeric polybase and a monomeric polyacid, (iii) a monomeric polybase and a polymeric polyacid, or (iv) a combination thereof, is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Claims 41 and 56 generally claim a substrate with an opaque coating that becomes partially or entirely transparent upon contact with a recording liquid, however, it is apparent from the instant disclosure at the

Art Unit: 1773

time of filing that the novel opaque coating is required to have one of the above polybase and polyacid combinations (particular reference is made to Paragraph 39 of the instant disclosure).

***Terminal Disclaimer***

6. The terminal disclaimer filed on 5/5/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,723,383 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Response to Arguments***

7. Applicant's arguments, see pages 12-14, filed 5/5/06, with respect to the double patenting rejections have been fully considered and are persuasive. The rejections as recited in paragraphs 3-4 of the prior office action have been withdrawn.

***Allowable Subject Matter***

8. Claims 1-40, 47 and 49-55 are allowed.

9. Claims 42 and 57 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
